Since the pandemic, our numbers have gone up over 25%. We still have a long waiting list... A lot of these families do not have insurance. Thanks to United Way, we have been able to utilize the funds they have given us to help these individuals get back on track.

During the 20/21 school year, UWHC's added support has enabled us to serve 75 children for virtual and/or hybrid learning while Horry County Schools were impacted by COVID-19. We have been able to operate the YMCA Learning Academy & provide students with a safe & caring learning environment. Without UWHC, we would not have been able to have such an amazing impact on the kids, parents & community during this trying time.
