

BASIC NEEDS GOAL

We seek to create a network of emergency assistance for our most vulnerable and at-risk population.

Intended Results

- **Increased availability of services that provide assistance for basic needs for people in crisis.**
- **Improved coordination of services among agencies providing emergency assistance.**
- **Increased availability of case management to navigate community resources and prevent future crises.**

Measurable Objective #1	<u>Remove barriers:</u> People have access to services and resources that help stabilize crisis situations and remove barriers to meeting basic needs (i.e. identification, birth certificates, social security cards, etc.)
How much did we do?	How well did we do it?
# of participants served by the program # of participants that were referred to other providers/programs	# of participants who take necessary steps to obtain necessary documentation (i.e. identification, birth certificate, social security card, driver's license, etc.) # of participants that obtain necessary documentation (i.e. identification, birth certificate, social security card, driver's license, etc.)
Measurable Objective #2	<u>Food:</u> Hunger and malnutrition are alleviated and prevented
How much did we do?	How well did we do it?
# of participants served by the program # of participants that were referred to other providers/programs	# of participants that were able to provide food for their household (i.e. food pantry, meal delivery, soup kitchen, etc.) # of participants who received education on healthy food options, food preparation, grocery shopping, etc. # of pounds of food distributed # of days food was provided for # of participants who received emergency food for at least 3-5 days # of participants who received emergency food for at least 6-9 days # of participants who received emergency food for 10 days or more
Measurable Objective #3	<u>Housing:</u> People have adequate, safe, affordable housing/shelter
How much did we do?	How well did we do it?
# of participants served by the program # of participants that were referred to other providers/programs	# of participants that were able to stay housed by receiving utility assistance # of participants that were able to stay housed by receiving rent/mortgage assistance # of participants that were able to access emergency housing/shelter # of participants that were able to locate transitional or permanent housing
Measurable Objective #4	<u>Basic Materials:</u> People will have access to basic hygiene, clothing, and/or other supplies
How much did we do?	How well did we do it?

**Note: This outcomes menu is a starting point. It can be modified and adjusted over time. **

# of participants served by the program # of participants that were referred to other providers/programs	# of clothing/household items provided # of basic hygiene items supplied (diapers, formula, feminine products, dental supplies, soap, etc.) # of showers provided
Measurable Objective #5	<u>Healthcare:</u> People will have access to healthcare services and supports that contribute to overall improved health
How much did we do?	How well did we do it?
# of participants served by the program # of participants that were referred to other providers/programs	# of participants who access healthcare services and supports # of uninsured participants who gain access to healthcare insurance # of participants served on a sliding scale # of medications or services given at a reduced cost
	Is anyone better off?
	% of participants who report an increased understanding or an ability to meet individualized health goals % of participants that follow their healthcare plan % of participants who return within 6 months for continuation and/or follow-up care % of participants who return within 12 months for continuation and/or follow-up care % of participants who report an improvement on their quality of life
Measurable Objective #6	<u>Transportation:</u> People will have increased access to affordable transportation options and/or systems that provide reasonable, timely, effective access to transportation
How much did we do?	How well did we do it?
# of participants served by the program # of participants that were referred to other providers/programs # of transportation requests (rides, bus tickets, gas vouchers, etc.)	# of participants receiving transportation support that meet their needs # of participants connected with information, resources, and/or tools on transportation options available
